

Exercise 14.2

Question 1:

Which of the following figures have rotational symmetry of order more than 1:

Answer 1:

Rotational symmetry of order more than 1 are (a), (b), (d), (e) and (f) because in these figures, a complete turn, more than 1 number of times, an object looks exactly the same.

Question 2:

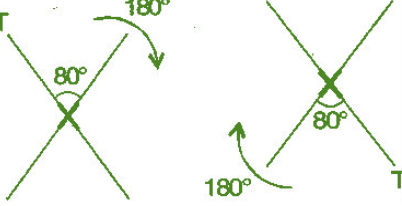

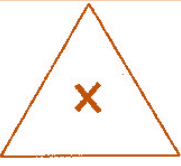

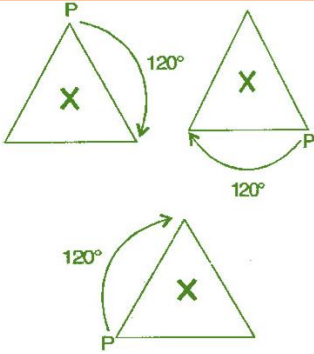

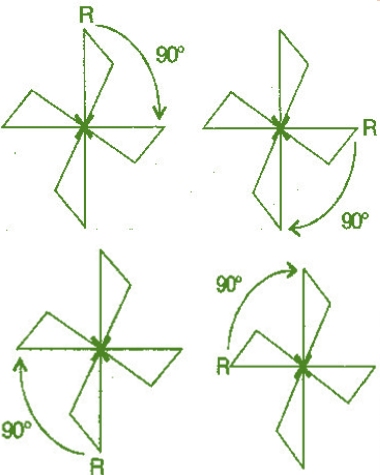

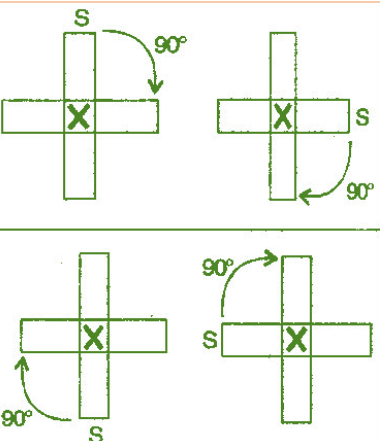

Give the order the rotational symmetry for each figure:

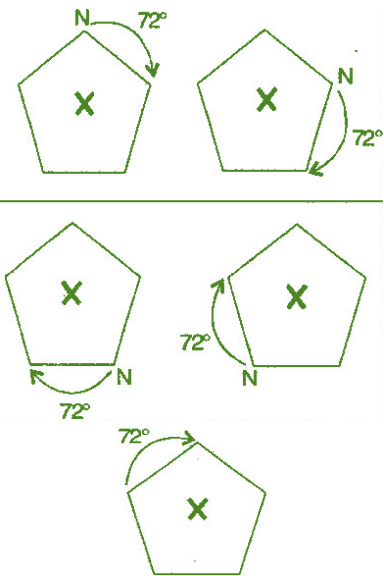

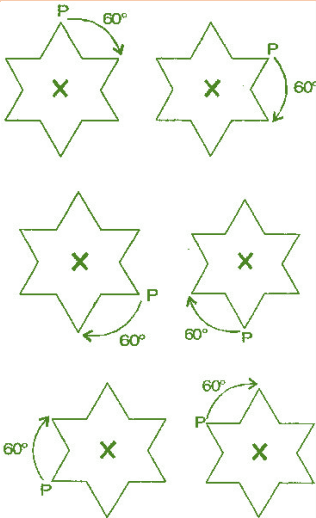

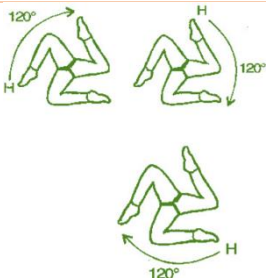

Answer 2:

S.No.	Problem figures	Rotational figures	Order of rotational symmetry
